CHAMPION, ALBERTA THURSDAY, OCTOBER 10 1940

NO. 38

'JOCK' AGGIN' TONGUE

Vol. 4 Thur Oct. 10th. No. 38

Jock McIntyre, Editor

It just seems that the weather wont let us finish this little dab of harvest, however things look promising just now.

We will be telling our grand children about the 1940 world series as there was plenty of his tory made. If you enjoyed the games on our diamond we are pleased as this is another way of saying let us be;

'Your Hardware Merchants'

Oakland and Enterprise heaters are the two lines to be depended on.

Geo Orr seemed to have the Indian sign on his share of the baseball pools. There were 28 pools for \$5 bonds this year.

One only Beatty engine drive at a bargain price.—see this one.

Ike Diemert and Lizzie were Champion visitors.

We have a good buy in a used Round Oak heater and boy she is a heater.

Herb Lamont has his chest stuck way out these days and everyone is doing fine, even dad.

We will not advertise a general sale this fall our complete store is on sale at all times and you will make no mistake in making us "your hardware merchants"

Doug Henderson has purchased the Barker house.

See our bargains in 1934 Chev. and Model A Ford sedans, 1935 Int & Ton and 1931 Chev. & ton trucks. They are going to be sold.

The Pool annex is just about ready for grain.

Two bucks for any old lamp on a new Coleman mantle Co. lamp.

Wm. Penn and North Star Oils and Greases are —
"Still the Best"

Britain's Defences

Britains coasts are secure against Germany's invasion thanks to the craft that are shown in the above picture returning from Channel patrol.

Wedding Bastin — Raby

Tall white tapers and white flowers on the altar of St. Augustine's church formed the background for the lovely autumn wedding on Wednesday afternoon at 3 o'clock of Dorothy Eileen, third daughter of Mrs B A Raby and the late Clifford Raby to Mr Philip Howard Bastin, son of Mr and Mrs J Howard Bastin of Calgary, formerly of Champion. Rev P O Wade performed the ceremony at the chancel steps where tall standards of pale pink, yellow and white gladiol were artistically arranged. Miss Aileen Jones at the organ.

African Missionary's Visit Champion

Mr. and Mrs. Cliff McElheran missionaries from Africa week end visitors at the home of M and Mrs. A. I. Tuisku. They had been in Africa for four years and were given one year leave in which they came back to Canada to visit relatives and friends.

On Saturday night they showed lantern slides in the United Church of Africa and explained the customs of the people there.

They brought back preserved specimens of ants and scorpions. Mr. and Mrs. McElheran worked in a Leper Colony in northern Nigeria where they will return in the spring.

Junior I. O. D. E. Organized Here.

The Junior Chapter of the I. O. D. E. was formed by the Senior Chapter under Mrs. Dr. Freeze on Oct. 3, 1940. About twenty five girls were present and the following officers were elected:—

Regent Phyllis Chamberlain
1st Vice Regent Eva Latiff
2nd Vice Regent Virginia Farmer

Secretary Shirey Taylor
Treasurer Rica Cemulini
Standard Bearer Margaret Fath

The next meeting will be held at the home of Mrs. Chamberlain on Thursday, Oct. 17.

Anyone wishing to join the Junior Chapter please get in touch with one of the executive.

CARMANGAY

ANNOUNCEMENT

Mrs. A. M. Thompson of Carmangay wishes to announce the marriage of her daughter Merle Fay to Roscoe George Howatt of Turner Valley.

The Ladies Aid met Friday last at the home of Mrs W C Folks, a good attendance was present. Arrangements were made for the chicken supper.

Miss McWilliams, High school teacher called a meeting of the young people of the town for the purpose of forwarding activities for the winter, the following as officers: Miss McWilliams, president; Stanley McKay vice president and Miss Farmer, secretary treasurer. Another meeting will be held Thursday.

Mrs Nault, of Lethbridge is the guest at the home of her and daughter-in-law Mr and Mrs H Nault.

Billie Fraser has reported for training at Red Deer.

Harvest Festival will be held at the United Church on Sunday evening, Oct 13th Rev Harden officiating.

Pictures start at 8 p m this week with Carole Landis, Henry Wilcoxon and Ouslow in "Mystery Sea Raider."

Miss Evelyn Hicks leaves on Friday for Pincher Creek, where she will be chief operator in the telephone office. It is fifteen years since she started on the switch board. Miss Patsy Nugent takes over the local office.

Mr and Mrs R England week end guests at the home of the latter's parents, Mr B Henson of Longview.

Prayer for Today

O Almighty God, who can bring good out of evil, and make even the wrath of man to turn to Thy praise: we beseech Thee so to order and dispose the issue of this war, that we may be brought through strife to a lasting peace; and that the nations of the world may be united in a firmer fellowship for the promotion of Thy glory and the good of all mankind; through Jesus Christ our Lord Amen.

Huge Building Program of Alberta Pool Elevator.

The building program under taken by Alberta Pool elevators during the current year, in order that patrons might get additional storage space for their deliveries was revealed in a radio address given by R D Purdy general manager last week.

The program provided for added space of some 54 million bushels of grain, as follows:—

4 twin elevators
21 cribbed annexes
140 balloon type annexes
The country elevator system numbering 424 houses, with the additional annexes can accommodate 23,000,000 bus., of grain

Three terminals operated, two at Vancouver and one (in conjunction with the Manitoba Wheat Pool) at Port Arthur, provides space for about 9,000,000 bushels. The total capacity of the entire Alberta Pool system is approximately 32,000,000 bus

Mr and Mrs H T Lamont are being congratulated on the birth of a son on October 7

Mr G Campbell and Mr Lamont are Calgary visitors today.

Fire Prevention Week

Fire prevention week will be observed throughout Canada from October 6th to October 12th. The best place for fire prevention to start is in the home. Charity should start there, according to the ancient saying, and certainly safety should come first. In order to safeguard the home, inspection should be made, not only Fire Prevention Week but periodically throughout the year. All heating and lighting equipment should be examined and chimney and pipes kept clean of soot. No smoke pipes should be permitted through combustible walls and disposition of ashes safeguarded. The use cabinet should be made of metal or asbestos lined. Fuses in all fuse blocks, none of them bridged, and not over 15 ampere fuses used in branch circuits. All drop cords should be insulated, and not supported on any conductive material. Electric irons should always be detached when not in use and kept on metal stands.

Matches should be kept out of reach of children and the children should be regularly taught the danger of fire and not to play with matches. The safest type of match to use is the Safety Match which may be lighted on the box only.

Closets should be kept clean and all rubbish removed from the premises. Cleanliness is next to Godliness. Perhaps that is the reason it always plays such an important in fire prevention.

Monkey Business

His car and her car met head on. Both drivers got out and with fine courtesy so characteristic of motorists nowadays, both began to apologize profusely.

'I'm so sorry,' said the lady; 'It was all my fault.'

'Not at all madam,' the man responded with a gallant gesture; 'I was to blame myself.'

'But I insist the fault was mine. I was on your side of the road.'

'That maybe true; but, my dear madam, I am responsible for the collision. I saw you coming blocks away, and I had ample opportunity to dart down a side street.'

A small boy was sitting on his father's knee watching his mother as she painfully went through the delicate operation of doing her hair in the most becoming wave effect. "No waves for you Pa," said the infant philosopher as he fondly polished his parent's bald head, "you're all beach."

He: You are always wishing for something you haven't got.
She: Well, what else can one wish for?

Killing Weeds This Fall

This open fall gives farmers an unusual opportunity to destroy uncountable numbers of bad weeds. A light disking or cultivating of the land in the late fall kills many weeds that started to grow after harvest; and will encourage other weeds to germinate which the winter frosts may later kill.

"HUMANITY HAS STRUCK ITS TENTS"

At one stroke the thousand-year-old British Constitution was abolished by the British House of Commons...

It was done by the passage of an act that could be placed on a sheet of notepaper.

In a few hours the capitalistic organization of society was undermined.

Profit as a motive in human association was suspended.

Labor relinquished cherished rights and privileges as its contribution.

This momentous change heralds the passing of an era.

Humanity has once again struck its tents and is on the march.

Join the trend and aid in placing the co-operative movement strongly in the vanguard of a new hope.

SILVER LINING

THERE'S a quiver in my liver,
There's a murmur in my heart,
I'm growing bare, where once
was hair;

I'm falling all apart,
My eyes are crossed, my teeth
are lost,
My feet!—as flat as can be,
But I'm not sore, for in a war
They don't want guys like me!

Fall Cultivation Saves Spring Bait

Scarcity of Hopper Bait
Forecast for Next Year; Fall
Cultivation Will Help

Grasshopper poisoning, when necessary next year may have to be confined to crops or summerfallow or properly cultivated stubble. The provincial department of agriculture warns farmers to refrain from cropping land in 1941 that has not been summerfallowed in 1940. However, if land used this year is urgently needed, farmers are advised to shallow-cultivate all stubble fields as soon as the crop is harvested. Farmers in grasshopper infested districts are advised that there are two classes of the pests. One class is those that lay eggs in headlands, roadsides and other grassy locations and hatch out in the spring and the young hoppers destroy the entire crop before effective control measures can be applied.

It is almost impossible to save a crop so infested. The hoppers may be destroyed by poisoning but the crop is usually lost. If they are not poisoned they may migrate to adjacent fields and continue their destruction.

The eggs of the second class, laid in great numbers over an entire field, are fairly easy to destroy. The other

class is those that lay eggs in grain and stubble fields during and after the harvest.

The first class attack grain fields from the outside and can be poisoned on their breeding grounds.

There is a method of shallow cultivation to a depth of not more than two inches, exposing the eggs so the sun and wind may dry them out. Care must be taken that the depth of cultivation is shallow so that the eggs are not recovered with soil or trash.

It is the belief of the field crops branch that if land is not cropped two years in a row, except in cases of extreme necessity, and then only after careful cultivation, the grasshopper damage will be halted.

Mrs W Diemert of Calgary was a Champion visitor over the weekend.

Mr and Mrs H Smith accompanied by Mrs Lantz and daughter Doreen were Sunday visitors at Lomond.

Mr and Mrs C Miller entertained at dinner complementary to Mrs Lantz of Toronto who is guest of Mr and Mrs H Smith

Mr Bernard Jordon has reported at Red Deer for training

Many lots of wheat hauled by farmers to elevators from this new crop contain split kernels to an extent that often good No 1 is being degraded down to 2 and 3 and sometime to 4 and lower grades. This represents a serious loss to farmers.

Wheat containing split kernels is being degraded by the Government Inspection Department for the reason that millers strongly object to it, for split kernels are almost impossible to separate from sound wheat. Millers find too that wheat containing split kernels does not make as much flour or as good flour as sound wheat.

Most if not all of the split kernels that are present in this year's crop could be avoided if particular care is taking in threshing. Concaves should be opened up wider, or fewer used perhaps even blank concaves may in some instances be necessary.

In any event farmers should watch carefully the first few bushels coming over from the combine or separator, and then should adjust their concaves so that the wheat will not be split. The loss from having a few white heads or unthreshed spikelets in the grain will be very much less than the loss from threshing close, and so of running the risk of splitting kernels.

How to Address Mail to Men in Uniform

The manner in which mail to men in uniform should be addressed is repeated here as follows:

When sending mail to the Army overseas, always give the regimental number, rank, name and details of his unit:

For example:
C2374, Sapper John Doe,
3rd Field Company,
Royal Canadian Engineers,
Base Post Office,
Canada.

If overseas on a special course or advance party:

For example:
Flight-Lt. John Doe,
RCAF Headquarters,
Special Course Overseas,
Base Post Office,
Canada

If still in Canada, address to camp

L-47163 Bombardier J Doe,
11-69 Field Battery,
Royal Canadian Artillery,
CASF Field Post Office,
Petawawa Camp, Ont
